Chanute Air Force Base Histories

COLLECTION 200.018

## Champaign County Historical Archives

**Compiled by:** Ani Karagianis

**Creator/Corporate name:** Chanute Air Force Base

**Inclusive Dates:** 1917-1993, Bulk 1944-1993

**Physical Description:** 24 boxes

**Provenance:**

These files were created by the Chanute Air Force Base prior to the base closure. After the base closed, they were then moved to the Chanute Aerospace Museum until the museum's closure in 2015. The Chanute Air Force Base History files were donated to the Champaign County Historical Archives after the Octave Chanute Aerospace Museum closed.

**Access:**

The records are accessible to the public within applicable copyright restrictions and limited to use at the Champaign County Historical Archives of The Urbana Free Library.

**Historical Note:**

The Chanute Air Force Base was open for 75 years and operated as a training ground for generations of Air Force servicemen and women. Its long history through several military conflicts and influence as a Technical Training Center made it a well-researched subject. These records detail the yearly running of the base from its inception in 1917 to its closing in 1993, including reports by the Chanute Technical Training Center and Unit Histories. These records were originally compiled by the base historians, including Donald Weckhorst.

**Scope and Content Note:**

The Chanute Air Force Base Histories Collection consists of training files by year (often broken up into 6 month intervals) from 1917-1993, some years have multiple volumes. The items are either in file folders or bound books, with the format noted in the finding aid. The training files refer to the Chanute Technical Training Center. This collection also consists of general administrative history of the base as well as unit histories. Interesting records worth noting are those related to the 50<sup>th</sup> anniversary of the Chanute Air Force Base in 1967.

**Arrangement:**

These records are arranged into one series and organized chronologically into either folders or bound books. Bound books in this collection will be labeled as "Item" to differentiate from folders.
